Alexandria VA 22314

Sir:

In response to the Office Action dated March 16, 2005, Applicant elects the alleged  
Species II, drawn to a plasma-enhanced method of processing each of a plurality of substrates.

The election is without traverse.

Claims 6-14 read on the elected Species II.

The Examiner has indicated that dependent claim 8 is generic. However, since  
independent claim 6 is broader than dependent claim 8, it follows by definition that claim 6 must  
be generic as well.

Respectfully submitted,
